Call for tenders for Regular Products
June 2007 analysis period

To all agents and suppliers

IMPORTANT * IMPORTANT * IMPORTANT * IMPORTANT * IMPORTANT

Following technical problems experienced by Global Wine and Spirits (GWS), our platform web responsible, **the SAQ exceptionally postpones the closing of the call for tenders of the regular products, actually in progress, until Friday March 23, 2007, 11:59 pm, Montreal standard time.**

To restore the situation, GWS will contact directly the submitters for which tenders are affected to correct them before the closing of the call for tenders.

The problem being now fixed, we invite you to submit your regular products tenders. Please note that, however the closing being postponed, our SARA (Business Relations Assistance Service) preserves its regular schedule until Friday at noon.

We apologize for any inconvenience caused by the technical problems and are endeavouring to fix the situation as soon as possible.
