

# Bulletin Information

Next specialty products call for tenders  
End of schedule by category

To the intention of all agents and suppliers

---

## Next specialty products call for tenders

Since the schedule for new specialty products proposal analysis is drawing to an end, the *Société des alcools du Québec* wishes to inform you of the details concerning the next schedule. The implementation of the web platform allows us now to pass to a functioning mode similar to that of the regular products. Thus, the schedule for specialty products call for tenders won't be set up in sequent categories. Consequently, you will be allowed to submit proposals of new products for all categories, since the next specialty products call for tenders, available online on November 29, 2007.

The SAQ wishes to fill up its needs for the following categories, which will be specified at the moment of its publication:

- Australia
- Brandy
- Champagne
- Mousseux
- Big format (wine)
- Half size format (wine and spirits)

Besides the categories listed above, the SAQ needs concerning specialty products are already filled up. However, according to the quality of the received proposals, some supplementary products could be retained for other categories, except the gift-pack category, for which no offer will be considered.

The SAQ wishes also to inform you, that a second call for tenders, in the same formula, is foreseen on April 2008.
