Organizational chart update

For all agents and suppliers

Reorganizing of Procurement and Merchandising Division

Alain Brunet, Vice-President of the Procurement and Merchandising Division, would like to inform you about some changes to the division's organizational chart.

As an information, Yves Beaucaire, Assistant Director for the Specialty Product Development Department, took his retirement on May 2, 2008, and after a long career within the company, he will be now able to get involved in new professional projects. In the name of the management, we thank him for his faithful services and wish him the best of luck in his further activities.

Aiming to optimize the selection and the merchandising activities for the specialty products, we inform you that the team directed by Benoit Beaudet, Specialty Product Merchandising Department Director, will be exclusively in charge of the research, the selection and the merchandising of the **new specialty products**.

Moreover, in order to standardize the activities of restocking according to our businesses objectives, **the specialty products renewals by lot** will be, as for the continuous supply, treated by the Logistics and Distribution Division under the supervision of Gilles Goulet, Purchasing Director.

An updated version of the organizational chart will be soon issued on our online gateway www.saq-b2b.com
