

# Information bulletin

## New evaluation grids

To all agents and suppliers

---

### **Changes to the Call for Tenders application online form**

A number of changes have been made as a result of the revision of the *Purchasing and Merchandising Policy*, including changes to the selection criteria for new products.

We are pleased to confirm you that the new evaluation grids will be in effect starting on the launch of the Calls for Tenders for regular and speciality products that are scheduled for early November.

Consequently, the submission forms have been revised so we can collect the new required information, specifically with respect to sustainable development. Other adjustments have also been made.

In light of this, we invite you to consult the enclosed [Explanatory Guide](#), which will help you to become familiar with the revised form before its official application.

Please note that this is the first phase of the improvement process. The next phase will mainly involve the integration of proposals into the future *Online Catalogue of Proposals*.
