## Quebec Sales Tax

To all agents and suppliers

---

### **Increase on January 1, 2011**

In its most recent budget, the Quebec government announced that it will raise the Quebec sales tax (QST) effective January 1, 2011. On that date, the sales tax will increase to 8.5% from the current 7.5%.

This will, of course, have an impact on products' retail prices beginning on January 1, 2011. All other taxable fees charged by the company will also be adjusted to reflect the increase in the QST.
